1.3 AVAILABILITY OF LOCAL FUNDS:

Attach a summary from the <u>Chief Financial Officer</u> listed in section 5.2 listing <u>all local share</u> funds budgeted for the project and the date they are anticipated to be available.

2.0 PROJECT INFORMATION

IMPORTANT: If project is multi-jurisdictional, information must be consolidated in this section.

- 2.1 PROJECT NAME: __Enfield/Eswin Road Improvement Project
- 2.2 BRIEF PROJECT DESCRIPTION (Sections a through d):
 - a.) SPECIFIC LOCATION: Located within the Village of Greenhills,

east of Winton Road, running south from Ingram Road to Farragut Road.

Runs through Village's only business district. See attached map.

PROJECT ZIP CODE: __45218

b.) PROJECT COMPONENTS:

This road improvement project would involve replacing 57-year-old rolled curbing that in most places has been blacktopped over with new rolled curbing on Enfield and vertical curbing on one side of Eswin (one side already improved); base repair where needed; grinding of existing pavement where needed; stress-absorbing membrance; catch basins reconstructed where needed; fire hydrant and utility movement where required; upgrading water main with new tie-in and hydrant to more current standards; upgrading the width of the roadway to more current standards, from 24' in places to 26' and 31' in places (no lanes added). See map. Improvement

c.) PHYSICAL DIMENSIONS/CHARACTERISTICS: of curve angle; and at least a 2" asphalt overlay.

Width of the existing asphalt three-lane Eswin portion is twenty-nine feet (29') to thirty-six feet (36') from back of what remains of the 57-year-old rolled curb to new vertical curb. Width of the existing asphalt two-lane Enfield portion is twenty-five feet (25') back to back of remaining rolled curb and twenty-four feet (24') catch basin to catch basin. Eswin length is three hundred thirty-five feet (335') and Enfield is fifteen hundred thirty-seven feet (1537').

d.) DESIGN SERVICE CAPACITY:

IMPORTANT: Detail shall be included regarding current service capacity vs proposed service level.

If road or bridge project, include ADT. If water or wastewater project, include both current residential rates based on monthly usage of 7,756 gallons per household.

Attach current rate ordinance.

This road, originally constructed by the Federal Government when they built our Greenhills village in 1937, is located in the center of town and serves mostly an area of stores and shops, a school and recreation center. It also serves as a connector road between Ingram and Farragut Roads. This project is a repair/replacement project and the current capacity is more than adequate for the service area for the next twenty years or more. The water line improvement tie—in will greatly improve the fire protection ability of our business district The Average Daily Traffic Count was 5,471.

2.3 USEFUL LIFE/COST ESTIMATE: Project Useful Life: 30 Years.

Attach Registered Professional Engineer's statement, with original seal and signature certifying the project's useful life indicated above and estimated cost.

3.0 REPAIR/REPLACEMENT or NEW/EXPANSION:

^{*} Failure to meet project schedule may result in termination of agreement for approved projects. Modification of dates must be approved in writing by the Commission once the Project Agreement has been executed. Dates should assume project agreement approval/release on July 1st. of the Program Year applied for.

6.0 ATTACHMENTS/COMPLETENESS REVIEW: Check each section below, confirming that all required information is included in this application. A certified copy of the legislation by the governing body of the applicant authorizing a designated official to submit this application and execute contracts. (Attach). A summary from the applicant's Chief Financial Officer listing all local share funds budgeted for the project and the date they are anticipated to be available. (Attach) X A registered professional engineer's estimate of projects useful life and cost estimate, as required in 164-1-14 and 164-1-16 of the Ohio Administrative Code. Estimates shall contain engineer's original seal and signature. (Attach) n/a A copy of the cooperation agreement(s) if this project involves more than one subdivision or district (Attach) x Capital Improvements Report: (Required by 164 O.R.C. on standard form) A: Attached.

- n/a Floodplain Management Permit: Required if project is in 100 year floodplain. See Instructions.
- Supporting Documentation: Materials such as additional project description, photographs, economic impact (temporary and/or full time jobs likely to be created as a result of the project), and other information to assist your district committee in ranking your project.

B: Report/Update Filed with the Commission within the last twelve months.

7.0 APPLICANT CERTIFICATION:

The undersigned certifies that: (1) he/she is legally authorized to request and accept financial assistance from the Ohio Public Works Commission; (2) that to the best of his/her knowledge and belief, all representations that are part of this application are true and correct; (3) that all official documents and commitments of the applicant that are part of this application have been dulyauthorized by the governing body of the applicant; and, (4) should the requested financial assistance be provided, that in the execution of this project, the applicant will comply with all assurances required by Ohio Law, including those involving minority business utilization, Buy Ohio, and prevailing wages.

IMPORTANT: Applicant certifies that physical construction on the project as defined in the application has NOT begun, and will not begin until a Project Agreement and a Notice To Proceed for this project has been executed with the Ohio Public Works Commission. Action to the contrary will result in termination of the agreement and withdrawal of Ohio Public Works Commission funding of the project.

Re: Proposed Improvements, Enfield & Eswin Streets

Dear Mr. Moore:

Based on past experience, the useful life of the proposed concrete curb and combined curb and gutter in the above captioned project areas can be as much as thirty years. The asphaltic concrete resurfacing will have a useful life of between fifteen and twenty years.

Very truly yours,

John J. Duffy, P.E.

VILLAGE OF GREENHILLS

STATUS OF FUNDS REPORT

Funds for the Village of Greenhills Streets Maintenance and Repair project for 1995 will come from the General Property Taxes; State of Ohio shared funds (including license registrations, gasoline cents-per-gallon and excise taxes, and the municipal levy); charges for services (nominal); and other finance sources, including donations (if any) and interest on nominal investments.

For 1995, the total anticipated receipts is \$177,000; of this amount, \$73,750 is set aside for contractual services, including contract labor. Of the Village's portion of this project, all will come from this line item.

The Village of Greenhills Streets Maintenance and Repair (Special Revenue)

Fund will require the balance of its budget expenditures for normal street maintenance throughout the Village.

Kathryn L. Brokaw Finance Director September 6, 1994

RECORD OF ORDINANCES

 Dayton Legal Blank Co.	Form No. 30043
Ordinance No. 94-35-5 Passed Liptembur 6	1994

ORDINANCE NAMING DAVID B. MOORE, MUNICIPAL MANAGER, AS CHIEF EXECUTIVE OFFICER FOR THE VILLAGE OF GREENHILLS AND AUTHORIZING HIM TO EXECUTE APPLICATION TO THE DPWIC AND EXECUTE A PROJECT AGREEMENT.

Whereas, David B. Moore is the Chief Executive and Administrative Officer of the Village of Greenhills, by Charter; and

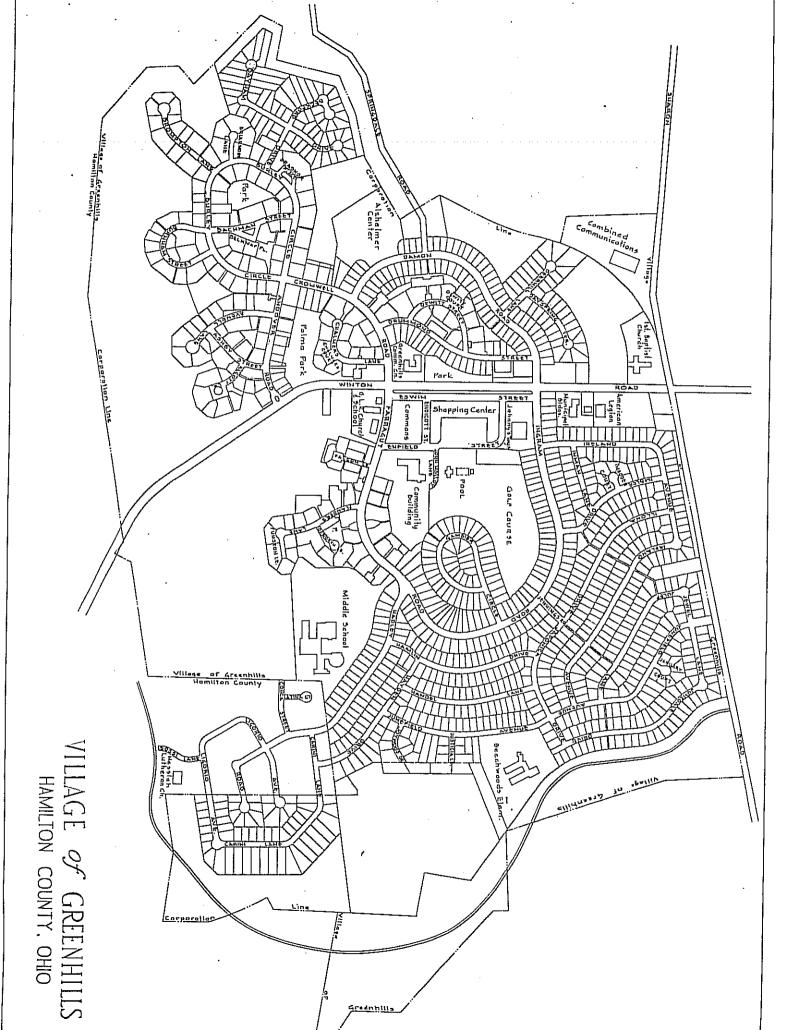

Whereas, submission of applications to the District Public Works Integrating Committee and execution of the Project Agreements with the Ohio Public Works Commission requires specific legislation authorizing a designated official to act on behalf of the Village of Greenhills;

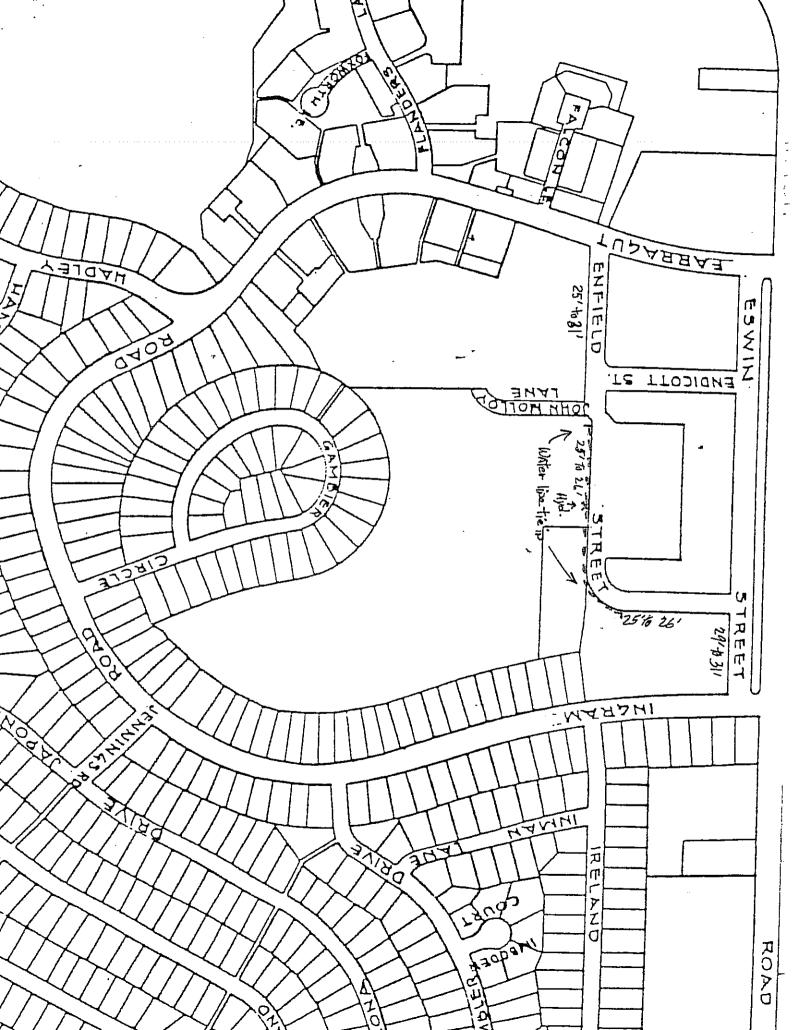

NOW, THEREFORE, BE IT ORDAINED by the Council of the Village of Greenhills, Ohio:

Section 1: That David B. Moore is hereby designated as Chief Executive Officer for the political subdivision of Greenhills, Ohio, for a term concurrent with his appointment as Municipal Manager of the Village of Greenhills for purposes of submitting applications to the District Public Works Integrating Committee (DPWIC).

Section 2: That David B. Moore is hereby authorized to submit the attached application for State Capital Improvement Program (SCIP) to the DPWIC and any and all other applications for additional funds to DPWIC.

Section 3: That David B. Moore is hereby authorized and directed to execute a project agreement with the Ohio Public Works Commission for the requested capital improvement road project or projects.

VILLAGE OF GREENHILLS

Temporary/Full Time Jobs

It is estimated that approximately twelve temporary jobs would be created as a result of this SCIP project. In addition, it is hoped that the road improvement will help not only to stimulate additional business and jobs in the central business district, particularly the lower level, but also to fill present vacancies in the central business district.

ADDITIONAL SUPPORT INFORMATION

For Program Year 1995 (July 1, 1995 through June 30, 1996), jurisdictions shall provide the following support information to help determine which projects will be funded. Information on this form must be accurate, and where called for, based on sound engineering principles. Documentation to substantiate the individual items may be required by the Support Staff if information does not appear to be accurate.

What is the condition of the existing infrastructure to be replaced, repaired, or expanded? For bridges, submit a copy of the current State form BR-86.	
Closed Poor x	
Fair Good	
Give a brief statement of the nature of the deficiency of the present facility such as: inadequate load capacity (bridge) surface type and width; number of lanes; structural conditions substandard design elements such as berm width, grades, curves sight distances, drainage structures, or inadequate service capacity. If known, give the approximate age of the infrastructure to be replaced, repaired, or expanded. Asphalt road constructed in 1937 and resurfaced in 1975. Road should be); 1; 5, ce ce
widened and the curve updated to more current standards, and new curbing installed to replace the deteriorated and paved-over curbing. The surfa heavily cracked and in poor condition. A new water line to tie together existing line including fire hydrant to bring it up to current standards needed.	ce i
If State Capital Improvement Program funds are awarded, he soon (in weeks or months) after receiving the Project Agreement from OPWC (tentatively set for July 1, 1995) would the project be under contract? The Support Staff will he reviewing status reports of previous projects to help judg the accuracy of a particular jurisdiction's anticipated project schedule.	ct ld pe re
weeks (months) (Circle one)	
Are preliminary plans or engineering completed? Yes No	
Are detailed construction plans completed? Yes No	
Are all right-of-way and easements acquired?* Yes No (N/	'A
*Please answer the following if applicable:	
No. of parcels needed for project: Of these, how	
many are Takes, Temporary, Permanent	_
On a separate sheet, explain the status of the ROW acquisition process of this project for any parcels not yet acquired.	ın
Are all utility coordinations completed? Yes No NA	Ά

Give an estimate of time, in weeks or months, to complete any

2

___ weeks(months)

item above not yet completed.

	·
3)	How will the proposed project impact the general health, safety and welfare of the service area? (Typical examples may include the effects of the completed project on accident rates, emergency response time, fire protection, health hazards, user benefits, commerce, and highway capacity.) Please be specific and provide documentation if necessary to substantiate the data.
	The proposed project would have a significant impact on the area by im-
	proving service use, stimulating business and jobs in that area of the
	business district, reduce accidents, improve emergency response, and
	greatly improve fire protection. Presently there is no fire hydrant in the
	rear of the business district.
4)	What type of funds are to be utilized for the local share for this project?
	Federal ODOT Local x
	MRF OWDA CDBG
	Other
	Note: If MRF funds are being used for the local share, the MRF application must have been filed by August 1, 1994 for this project with the Hamilton County Engineer's Office. The minimum amount of matching funds for grant projects (local share) must be at least 10% of the TOTAL CONSTRUCTION COST. What percentage of matching funds are being committed to this project?
	<u>20.3</u> %
5)	Has any formal action by a federal, state, or local government agency resulted in a complete or partial ban of the use or expansion of use for the involved infrastructure? (Typical examples include weight limits, truck restrictions, and moratoriums or limitations on issuance of building permits.) A copy of the approved legislation must be submitted with the application. THE BAN MUST HAVE AN ENGINEERING JUSTIFICATION TO BE VALID.
	Complete Ban Partial Ban No Banx
	Will the ban be removed after the project is completed?
	Yes No

6)·	What is the total number of existing users that will benefit as a result of the proposed project?
	6,565 Traffic counts were taken at four locations in the project area, and ADT ranged from 2,176 to 5,471.
	For roads and bridges, multiply current <u>documented</u> Average Daily Traffic by 1.20. For public transit, submit documentation substantiating the count. Where the facility currently has any restrictions or is partially closed, use documented traffic counts prior to the restriction. For storm sewers, sanitary sewers, water lines, and other related facilities, multiply the number of households in the service area by 4.
7)	Has the jurisdiction developed a Five Year Capital Improvement Plan as required in O.R.C., chapter 164?
	Yes <u>x</u> No
3)	Give a brief statement concerning the regional significance of the infrastructure to be replaced, repaired, or expanded.
	The users of Enfield/Eswin are both Greenhills residents and non-residents
	using it to reach our central business district, school building, and
	recreational facilities. Enfield/Eswin also serves as a Metro park-and-ride
	bus stop, again serving both residents and non-residents. Enfield/Eswin is
	important to the vitality and viability of our central business district. (see map)
	For expansion projects, please provide the existing and proposed Level of Service (LOS) of the facility using the methodology outlined within AASHTO'S "Geometric Design of Highways and Streets" and the 1985 Highway Capacity Manual.
	Existing LOS Proposed LOS
	If the proposed LOS is not "C" or better, explain why LOS "C" cannot be achieved. (Attach separate sheets if necessary.)

STATE CAPITAL IMPROVEMENT PROGRAM

ROUND NO. 9

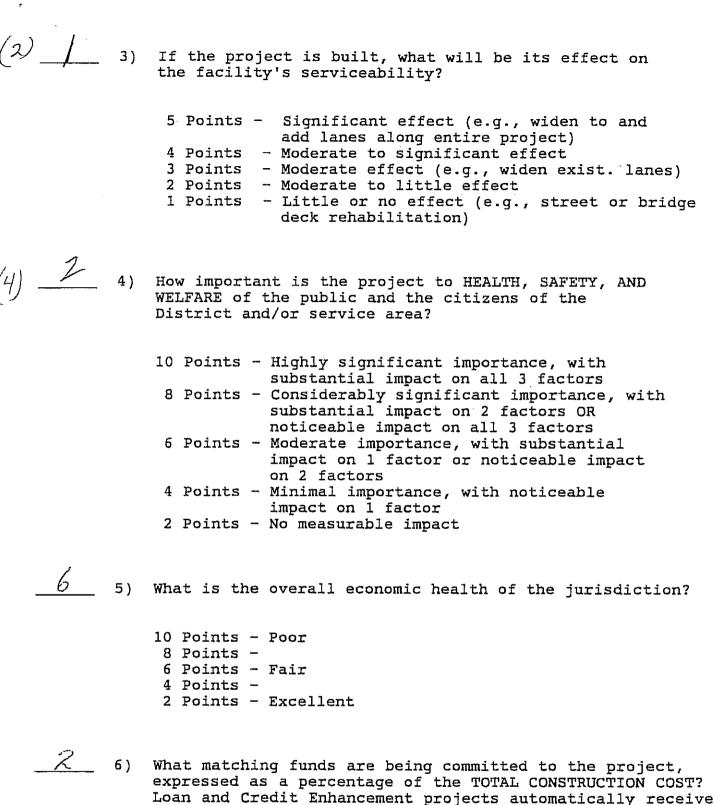

PROGAM YEAR 1995 PROJECT SELECTION CRITERIA - JULY 1, 1995 TO JUNE 30, 1996

ADOPTED BY THE DISTRICT 2 INTEGRATING COMMITTEE

June 27, 1994

JURISDICTION	N/AGENCY: GREEN HILLS			
NAME OF PRO	JECT: ENFIELD/ESWIN RO. IMPROV.			
total points for this project: 38 rating team no. 2				
NO. OF POINTS				
<u>/0</u> 1)	If SCIP Funds are granted, when would the construction contract be awarded? (The Support Staff will assign points based on engineering experience.)			
	10 Points - Will be under contract by December 31, 1995			
	5 Points - Will be under contract by March 30, 1996			
	0 Points - Will not be under contract by March 30, 1996			
ANNABE- 16URE 8	What is the condition of the infrastructure to be replaced or repaired? For bridges, base condition on latest general appraisal and condition rating.			
EBASÉ LURES	20 Points - Poor Condition 16 Points - 12 Points - Fair to Poor Condition 8 Points - 4 Points - Fair Condition			

NOTE: If the infrastructure is in "good" or better condition it will NOT be considered for SCIP funding.

Loan and Credit Enhancement projects automatically receive 5 points, and no match is required. All grant funded projects require a minimum of 10% matching funds.

> 5 Points - 50% or more 4 Points - 40% to 49.99% 3 Points - 30% to 39.99% 2 Points - 20% to 29.99% 1 Point - 10% to 19.99%

- 7) Has any formal action by a federal, state, or local government agency resulted in a partial or complete ban of the usage or expansion of the usage for the involved infrastructure? POINTS MAY ONLY BE AWARDED IF THE END RESULT OF THE PROJECT WILL CAUSE THE BAN TO BE LIFTED.
 - 5 Points Complete or significant ban
 - 3 Points Partial or moderate ban
 - 0 Points No ban of any kind
- 8) What is the total number of existing daily users that will benefit as a result of the proposed project? Appropriate criteria include current traffic counts, households served, when converted to a measurement of persons. Public transit users are permitted to be counted for roads and bridges, but only when certifiable ridership figures are provided.
 - 5 Points 10,000 or more
 - 4 Points 7,500 to 9,999
 - 3 Points 5,000 to 7,499
 - 2 Points 2,500 to 4,999
 - 1 Point 2,499 and under
 - Does the infrastructure have REGIONAL impact? Consider origins and destinations of traffic, functional classification, size of service area, number of jurisdictions served, etc.

- 5 Points Major impact (e.g., major multi-jurisdictional route, primary feed route to an Interstate, Federal - Aid Primary routes)
 - 4 Points -
 - 3 Points Moderate impact (e.g., principal thoroughfares, Federal - Aid Urban routes)
 - 2 Points -
 - 1 Point Minimal or no impact (e.g., cul-de-sacs, subdivision streets)
- 10) Has the jurisdiction enacted the optional \$5 license plate fee, an infrastructure levy, a user fee, or a dedicated tax for infrastructure?
 - 2 Points Two of the above
 - 1 Point One of the above
 - 0 Points None of the above

ADDENDUM TO THE RATING SYSTEM DEFINITIONS

CRITERION 1 - ABILITY TO PROCEED

The Support Staff will assign points based on:

- 1) Engineering experience
- 2) The information on the Additional Support Information, as verified where necessary.
- The applicant's past SCIP/LTIP record of successfully projecting project schedules on similar types of projects.

If a project rating on this item is reduced by the Support Staff because of a questionable schedule, and still receives funding, the submitting jurisdiction will be permitted to amend the Project Schedule accordingly.

CRITERION 2 - CONDITION

Poor - Condition is dangerous, unsafe or unusable

Fair to Poor - Condition is inadequate or substandard

Fair - Condition is average, not good or poor

CRITERION 5 - ECONOMIC HEALTH

The following factors are used to determine economic health:

- 1) Median per capita income
- 2) Per capita assessed valuation of the total community real estate and personal property
- Poverty indicators
- 4) Effective tax rates
- 5) Total corporate debt as a percentage of assessed valuation
- 6) Municipal revenues and expenditures per capita

CRITERION 9 - REGIONAL IMPACT

Major impact - Primary water or sewer main serving an entire system

Moderate impact - Waterline or storm sewer serving only part of a system

Minimal impact - Individual waterline or storm sewer not part of a system

Eswin
